

Empowerment & Spiritual Development Day \$80 pp

Extension Overlooking the Firth of Thames, with Rael

A gentle day of Intuition Extension, Healing & Self-Empowerment
at a private home with stunning views 2nd March 2019

The format is easy, interactive and deeply effective for all levels. I will combine meditation, spiritual conversation & effective intuition exercises & techniques while I do attunements in the background with your guides.

As well as working on boundaries, grounding & clearing we will extend your natural gifts and expand your connection & awareness of your abilities. Clairvoyance in its many forms and healing as well as your dialogue with spirit. Most importantly to have tools and experience in reaching further into your skills while teaching support and holding your own space.

As well as messages throughout the day, we have the added benefit of being with a group of like-minded people. Conversation will be interesting and open, where we can be safe and respectful without boundaries on possibilities.

Bring your lunch to eat together. Water, tea & coffee will be provided.

What you will take away: empowerment – integrity – self responsibility

My teaching style is very strong and effective while still being easy – to simplify & grow your own version of spirituality and access to your support team. Your version is individual and exactly right for you. Check everything against yourself. Just do you – your way.

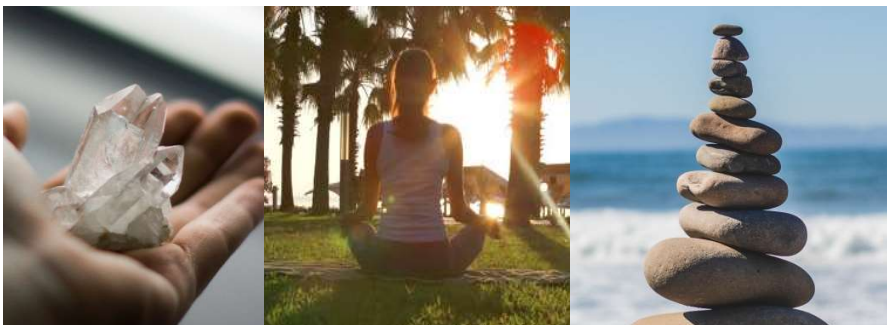

Your authentic self and your natural healing and intuition style.

This day is designed to draw out and expand your own unique gifts, to give you practical tools, exercises and experiences to keep developing your skills as well as giving you clear, simple intuition you can use in every area of your life.
