

## Empowerment & Spiritual Development Days 26<sup>th</sup> & 27<sup>th</sup> June

Extension in Omahu Valley, Paeroa with Rael: \$250 2 days

2 gentle days of Intuition Extension, Healing & Self-Empowerment  
at a private home deep in the Sacred Valley Of Healing, June 2021

The format is easy, interactive and deeply effective for all levels. I will combine meditation, spiritual conversation with effective intuition exercises & techniques while I do attunements in the background with your guides & you uncover your reframing.

While working on boundaries, grounding & clearing we will extend your natural gifts and expand your connection & awareness of your abilities; clairvoyance, empath, mediumship & healing as well as your dialogue with spirit. Most importantly: for you to have tools and experience in reaching further into your skills, reaching for support and holding your own space.

As well as messages throughout the day, we have the added benefit of being with a group of like-minded people. Conversation will be interesting and open, where we can be safe and respectful without boundaries on possibilities.

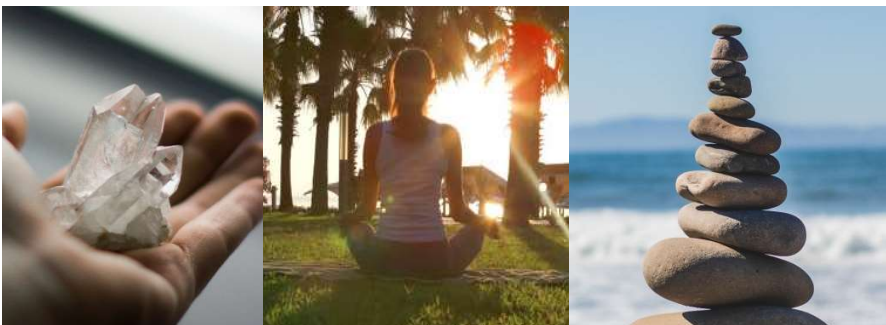

Bring floor cushions for mediation and your own lunch to eat together. Water, tea & coffee will be provided.

**What you will take away: empowerment – integrity – self responsibility**

My teaching style is very strong and effective while still being easy – to simplify & grow your own version of spirituality and access to your support team. Your version is individual and exactly right for you. Check everything against yourself. Just do you – your way.

**Your authentic self and your natural healing and intuition style.**

Each day is designed to draw out & expand your own unique gifts, to expand all your intuitive styles. We begin day 1 with my short Just Do You Seminar, including book and journal. This is followed by development with practical tools, exercises and experiences to keep developing your skills as well as giving you clear, simple intuition you can use in every area of your life. Throughout the workshop we focus on reframing and your unique extension.
